

SE- Introduction to Web Technologies - HTML and CSS

Session 2: HTML Page Structure Coverage: HTML boilerplate
(<!DOCTYPE>, <html>, <head>, <body>). Tags: Headings, paragraphs,
lists, anchors, images, tables. Demo: Create personal “About Me”
page.

Task :

Question :- 1

Create a new HTML file called foodie-profile.html with the full HTML5 boilerplate structure (<!DOCTYPE html>, <html>, <head>, <body>), and set the title to 'My Foodie Profile'.

Ans:-

```
<!DOCTYPE html>

<html lang="en">

  <head>

    <meta charset="UTF-8">

    <meta name="viewport" content="width=device-width, initial-
scale=1.0">

    <title>My Foodie Profile</title>

  </head>

  <body>

</body>

</html>
```

Question :- 2

Inside foodie-profile.html, add headings and paragraphs to introduce yourself as a food lover, including your favorite cuisine and a short story about your best meal.

Ans:-

```
<!DOCTYPE html>
```

```
<html lang="en">
```

```
<head>
```

```
  <meta charset="UTF-8">
```

```
  <meta name="viewport" content="width=device-width, initial-scale=1.0">
```

```
  <title>My Foodie Profile</title>
```

```
</head>
```

```
<body>
```

```
  <h1>Harsh's Foodie Profile</h1>
```

```
  <h2>About Me</h2>
```

```
  <p>
```

Hello! My name is Harsh Ahir. I am a food lover who enjoys exploring different cuisines and trying new dishes.

```
</p>
```

```
  <h2>Favorite Cuisine</h2>
```

```
  <p>
```

My favorite cuisine is Indian cuisine because it offers a variety of flavors, spices, and delicious dishes.

```
</p>
```

```
  <h2>Best Meal Experience</h2>
```

```
  <p>
```

One of the best meals I ever had was a traditional Gujarati thali with multiple dishes, sweets, and fresh rotis. It was a memorable dining experience with my family.

```
</p>
</body>
</html>
```

Question :- 3

Add an unordered list of your top 5 favorite dishes (like you'd see on Zomato), and a numbered list of 3 restaurants you want to try next.

Ans:-

```
<!DOCTYPE html>
<html lang="en">

<head>
  <meta charset="UTF-8">
  <meta name="viewport" content="width=device-width, initial-scale=1.0">
  <title>My Foodie Profile</title>
</head>
<body>
  <h1>Harsh's Foodie Profile</h1>
  <h2>About Me</h2>
  <p>
    Hello! My name is Harsh Ahir. I am a food lover who enjoys exploring
    different cuisines and trying new dishes.
  </p>
  <h2>Favorite Cuisine</h2>
  <p>
    My favorite cuisine is Indian cuisine because it offers a variety of flavors,
    spices, and delicious dishes.
  </p>
```

```
<h2>Best Meal Experience</h2>

<p>

    One of the best meals I ever had was a traditional Gujarati thali with
    multiple dishes, sweets, and fresh rotis.It was a memorable dining
    experience with my family.

</p>

<h2>My Top 5 Favorite Dishes</h2>

<ul>

    <li>Paneer Butter Masala</li>

    <li>Biryani</li>

    <li>Pizza</li>

    <li>Dosa</li>

    <li>Pav Bhaji</li>

</ul>

<h2>Restaurants I Want to Try</h2>

<ol>

    <li>Barbeque Nation</li>

    <li>The Grand Thakar</li>

    <li>Rajwady</li>

</ol>

</body>

</html>
```

Question :- 4

Insert an image of your favorite dish using the tag, and make the image clickable so it opens the official website of that dish or restaurant in a new tab using an anchor (<a>) tag.

Hint: Use target="_blank" in your anchor tag.

Ans:-

```
<!DOCTYPE html>

<html lang="en">

<head>

  <meta charset="UTF-8">

  <meta name="viewport" content="width=device-width, initial-scale=1.0">

  <title> My Foodie Profile </title>

</head>

<body>

  <h2>My Favorite Dish</h2>

  <a href="https://www.zomato.com/ahmedabad/best-pizza-restaurants"
  target="_blank">

    

  </a>

</body>

</html>
```

Question :- 5

Create a table that compares 3 food delivery apps (e.g., Zomato, Swiggy, Uber Eats) with columns for App Name, Delivery Charges, and Rating. Fill in sample data for each.

Ans:-

```
<!DOCTYPE html>

<html lang="en">

<head>

  <meta charset="UTF-8">

  <meta name="viewport" content="width=device-width, initial-scale=1.0">

  <title>Comparison</title>
```

```
</head>

<body>

  <h2>Food Delivery Apps Comparison</h2>

  <table border="1">

    <tr>

      <th>App Name</th>

      <th>Delivery Charges</th>

      <th>Rating</th>

    </tr>

    <tr>

      <td>Zomato</td>

      <td>₹30</td>

      <td>4.5/5</td>

    </tr>

    <tr>

      <td>Swiggy</td>

      <td>₹25</td>

      <td>4.4/5</td>

    </tr>

    <tr>

      <td>Uber Eats</td>

      <td>₹35</td>

      <td>4.3/5</td>

    </tr>

  </table>

</body>

</html>
```
